Юрий Георгиевич Каминский

21 марта 2017 г. после продолжительной болезни скончался Юрий Георгиевич Каминский - доктор биологических наук, старший научный сотрудник, заведующий лабораторией Института теоретической и экспериментальной биофизики РАН.

Юрий Георгиевич Каминский окончил Московский государственный университет, физический факультет в 1966 г. по специальности физика. Работал с 1966 г. в Институте биологической физики АН СССР. С 1990 г. работал в ИТЭБ РАН. В 1973 г. защитил кандидатскую диссертацию по теме «Флуориметрическое и фотометрическое исследование митохондрий при транспорте ионов (зависимые от окисления янтарной кислоты реакции митохондрий в условиях торможения I пункта сопряжения)». В 1989 г. защитил докторскую диссертацию по теме «Суточные ритмы в метаболизме».

Область научных интересов: Суточные ритмы в метаболизме. Регуляция обмена гликогена в мышцах, печени и мозге. Метаболизм при гипераммонемии и болезни Альцгеймера. Окислительное состояние эритроцитов человека в норме и при патологии. Руководил лабораторией в научном центре биологических исследований Пущино. Жил и работал в подмосковном научном центре — в городе Пущино-на-Оке.
